Day 2 Goal

The primary objective of Day 2 is to shift from business-oriented planning to technical preparation for building the marketplace.

A high-level technical plan, including system architecture, workflows, and API requirements, will serve as a blueprint for implementation.

Recap of Day 1: Business Focus

Key achievements from Day 1:

- Business Goals Defined:

  - Identified the problem statement.

  - Defined target audience and unique value proposition (UVP).

- Data Schema Drafted:

  - Preliminary data schema for products, orders, customers.

- Focus on Business Needs:

  - Ensured alignment before technical implementation.
